Fire & Vine Hospitality's core company values include:

- **Individual Responsibility:** We believe that individuals are responsible for their lives. The freedom that comes with knowing that your future is in your control is one of the greatest truths we know. Doing what you say without any follow up is one of our

values. We all have responsibility for ourselves, the attitudes we enter the doors with and the way we treat others.

- **Heritage of Hospitality:** Our profession is built on the heritage of hospitality giants that have come before us. We have brought forward techniques, traditions and an approach that celebrates our heritage while updating it for modern times.
- **Professional:** Our company was founded by professionals who saw this as a way of life where you could be proud of what you do. To profess is to love what you do. Professionals also take responsibility for their knowledge and continuing education. They are treated with respect by their peers and their opinions matter to all those involved in leading them.
- **Action Oriented:** We take action to move our restaurants forward. A fundamental strength of our business over well-funded national competitors is our ability to make a decision and move forward. Our action orientation is a distinct competitive advantage. If something is not working, fix it by taking action.
- **Stewardship:** Stewardship is the 'careful and responsible management of something entrusted to one's care.' In that regard, we are all stewards of our restaurants which include guests, employees, suppliers and the assets we maintain.
- **Building Strong Community:** Our restaurants forge a strong bond with our communities by being generous in our fundraising for local charities as well as giving our time and energy to building better communities. Our restaurants are a place of celebration and a gathering place for the entire community.
- **Free Enterprise:** We have a fundamental belief in the power of the free enterprise system. This allows us to elevate the capabilities of our people. We celebrate the success of businesses and the entrepreneurs who drive them. We relish competition and protect our ability to compete without using the government to protect us.

COMMUNITY INVOLVEMENT

Our properties forge a strong bond with our communities by being generous in our fundraising for local charities, as well as giving our employees opportunities to share their time and energy to

building better communities. We strongly feel that each of us has an obligation to help make our world a better place, and we are privileged to serve and give back to organizations who are focused on that mission.

While most of donations are guest-driven, through a generous match program as well as upgraded donation options through our loyalty program, the company has aligned with specific organizations in our communities. In 2013, El Gaucho Hospitality received the National Restaurant Neighbor Award for its work with Seattle's Union Gospel Mission. That commitment still continues, with the AQUA and El Gaucho teams joyfully preparing, transporting and serving lunch once a month to our city's homeless through UGM Men's Shelter. In Bellevue, El Gaucho proudly supports Jubilee Reach, an organization that steps in the gap for those in need around Bellevue, providing access to assistance programs and services focused on growing community and empowering our youth, by offering mentoring, tutoring, and over 20 free after-school clubs and sports within Bellevue public schools. In celebration of its 20 year anniversary, El Gaucho Hospitality raised \$130,000 for USO-NW to help build a new center, Camp Lewis, at Joint Base Lewis-McChord. The USO strengthens America's military service members by keeping them connected to family, home and country, throughout their service to the nation.

Through financial giving, time and resources, El Gaucho Hospitality has donated more than \$4,000,000 since 1996. In 2018, Fire & Vine Hospitality was recognized in Puget Sound Business Journal's list of top philanthropic organizations.
